McAfee SiteAdvisor Enterprise 3.5.0.1121

McAfee SiteAdvisor Enterprise [Permissions](#)

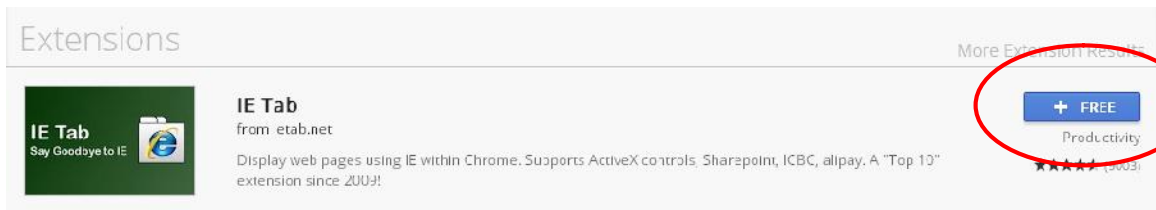

[Get more extensions](#)

In the Extensions page, click the “Get more extensions” link  
This will open up the Chrome Web Store

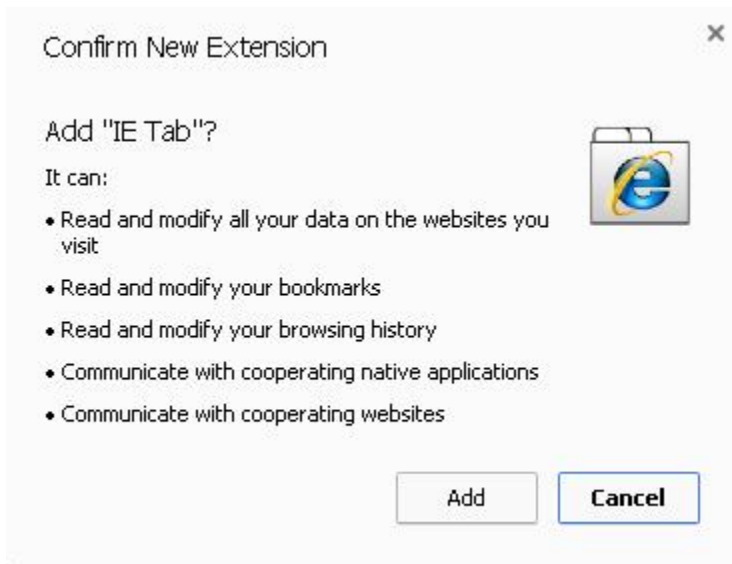

On the left hand side search bar, search “ie tab”

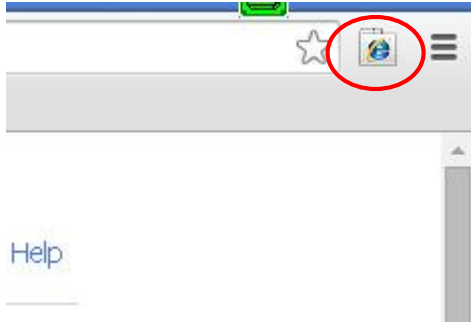

Find under Extensions (not Apps) IE Tab  
You do not have to pay for this extension!

Click the “+FREE” button

Chrome will ask you to confirm you want to add the extension. Click “Add”

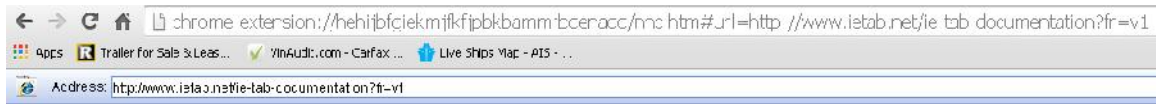

When you see this icon appear on the top right-hand corner, it is ready.  
Click the icon

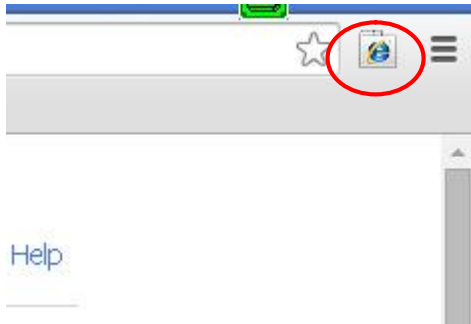

## Frequently Asked

It will install the first time you click it  
Click the "ietabhelper.exe"

You'll now see a second URL address bar under the Chrome address bar. Use this to access sites that Chrome cannot access

Every time you re-open Chrome, click this button to use IE Tab
